## Introducing Smart Townus

With the Smart Townus, we present the newest member of our Smart family. In the same design as the passive Townus models, the smart variant ensures enthusiasm with its extensive equipment and the best technical ingredients.

The fully active Smart Townus speakers are equipped with powerful amplifiers that provide 350 watts of power to each speaker. This eliminates the need for external power amplifiers and speaker cables. Simply set them up in the desired location, connect the power cable and feed player, and off you go with the listening fun in your home. The wireless signal transmission with 24-bit signal processing between the speakers ensures music playback of the highest quality.

## Easy to Connect

Our Smart Townus makes it easy for you: You can connect whatever your HiFi heart desires to the numerous inputs. For this purpose, analog connections in high-quality XLR and RCA versions are available, in addition to the digital variants in optical and coaxial design. A USB input with XMOS allows contact with computers and of course our Smart Townus can stream music in the best quality wirelessly via Bluetooth with aptX. We include a selection of cables so you can start playing music right away at home.

Thanks to the smart features, you can combine the compact Smart Townus 2 speakers with the Smart Townus 8 floorstanding speaker. This way, you can build a great-sounding home theater set in single-room operation or integrate your Smart Townus speakers as an excellent-sounding multi-room system.

## Excellent Components

Despite their compact dimensions, the elegant Smart Townus speakers impress with a broadband, powerful sound image - deepest bass, neutral mids and brilliant highs are reproduced with playful ease. Smart Townus bass-midrange drivers feature a stiff and low-resonance titanium cone, suspended in a latest-generation Wave surround, combined with the integrated 350 watt Class D amplifier, which all ensures impressive dynamics.

The high-end 25 mm aluminum oxide ceramic tweeters use a precisely calculated transmission front plate to optimize the sound radiation and coupling. Our wave-bending technology, the very solidly built enclosures and the strategically placed damping material keep sound damaging resonances away from these speakers.

# Product Data

Type	Active wireless speaker
Engineering Principle	3-way bass reflex
Systempower	350 watts per speaker
Frequency response	24...30.000 Hz
Crossover frequency	160 / 3.100 Hz
Woofer	2 x 154 mm (6.1"), Titanium (Wave surround)
Midrange	1 x 154 mm (6.1"), Titanium (Wave surround, TCC)
Tweeter	1 x 25 mm (1"), Ceramic
Connection	1 x Analogue input (chinch) 1 x Bluetooth® 3.0 Interface (apt-X® Decoding for transmission in CD quality) 1 x Digital Input (coaxial) 1 x Digital Input (optical) 1 x USB-Input with XMOS® technology 1 x XLR (Balanced)
Features	Decoder: Dolby Audio®, DTS Digital Surround® Internal wireless network to connect to other Smart Series models Bluetooth® wireless technology LED-Display Virtual Surround for Stereo, Musik & Surround Sound Virtual Center at 4.0 home cinema mode
Special Features	Wireless transmission between speakers Easy installation – one cable to the TV set, one cable to the wall socket Volume adjustment per loudspeaker Setting the listening distance per loudspeaker Voice function – for better speech reproduction in stereo & surround sound Equalizer – adaptation to spatial conditions Dynamic Range Control – Setting the Dynamic Range Sleep timer – Setting the turn-off time IR learning function – controllable with TV / system remote control Input Direct Dial – ideal for system remote controls IR clear function – simplest deletion of unwanted learning functions Automatic switch-on and switch-off Configuration of the inputs – Input renaming LipSync function – for exact speech synchronization System Volume – Setting the Maximum Level Restore factory settings – Reset function Wireless Speaker Pairing – pairing of the wireless loudspeakers Bluetooth Select – Automatically selects BT input Autoplay Function – Automatic Bluetooth® Playback USB Playback fabric grill with magnetic mount
Warranty	2 years
Dimensions (WxHxD)	23 x 101,5 x 33 cm (9.1 x 40" x 13") (W x H x D)
Weight	21 kg
Power consumption	ECO/MAN: 0,5 watts, NSB: 1,5 watts (factory setting)
Carton Content	1 x Smart Townus 8 (master) 1 x Smart Townus 8 (slave) Equipmentfeet Fabric grill (magnetic) Short manual
